OBJECTIVE

I am an aspiring software engineer pursuing a Master's in Software Development at the University of Utah, seeking an internship in the software field for the Summer of 2024. I am eager to apply emerging programming skills and a growth mindset to contribute effectively to software projects and continuously expand technical expertise.

EDUCATION

University of Utah

Master's of Software Development

Projected Graduation: 12/2024

GPA: 4.0

16-month Graduate program designed to produce proficient full-stack software engineers.

Utah Valley University

Bachelor's of Hospitality Management

01/2019 - 05/2021

GPA: 3.93

Four-year degree in Hospitality and Business Administration (expedited).

WORK EXPERIENCE

Fine Dining Server

Edison House SLC

04/2023 - Present

- Current part-time employment while pursuing a Master's degree in Software Development
- Joined the company 5 months after opening - shared insights from Hospitality Management studies to enhance service standards
- Food and beverage service, member recognition, executing events

Food & Beverage Manager - Seasonal

12/2022 - 03/2023

Montage Hotels & Resorts

- Opened two new Food & Beverage outlets for the hotel within the first month of employment
- Trained 10 employees on J1 visas how to work in their first restaurant jobs
- Maximized profitability by creating weekly schedules while reviewing Daily Labor and Daily Revenue Reports with forecasted occupancy

Front Desk Manager

10/2021 - 12/2022

Marriott Vacations Worldwide

- Recruited, hired, and onboarded new associates for multiple departments on site
- Created the new standard training manual for Activities and Front Desk departments
- Managed guest issues, resolution, and compensation to ensure positive post-stay feedback (consistently a top performer in employee recognition by guests)
